COMMUNITY-BASED RESILIENCE BUILDING MODEL IN CRISIS CONTEXT IN YEMEN

Implementing Partners

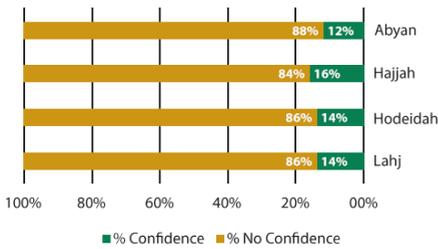

Abbreviation Index: ERRY: Enhanced Rural Resilience in Yemen | SFD: Social Fund for Development | VCC: Village Cooperative Council | CBOs: Community Based Organizations | IDPs: Internally Displaced Persons | DMTs: Districts Management Teams | IPC: Integrated Food Security Phase Classification

EXPECTED RESULT

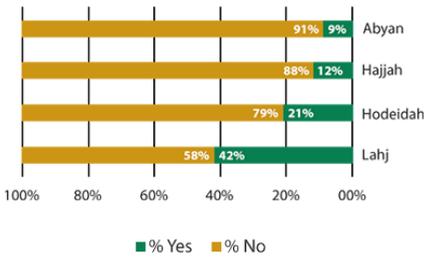

Informal networks promote social cohesion through community dialogue and delivery of services.

➤ Social Cohesion Baseline - 2017 (random samples from 8 districts)

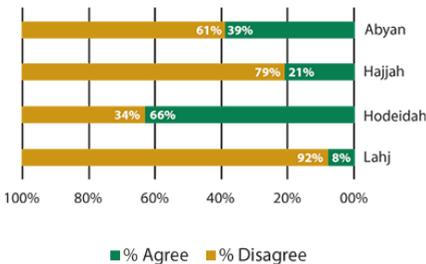

Confidence in local authorities by affected communities

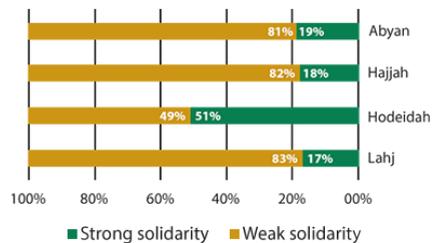

Feel they are being heard

Percentage who agree to lose opportunities to those who need it more such as IDPs

Level of solidarity

Source: ERRY Baseline 2017

INTERVENTIONS

Identification, establishment and trains of Insider Mediator

229

Insider Mediators are trained in all targeted communities

33%

Insider Mediators are women

Facilitate community dialogue initiatives

8

Conflict scans to identify the local-level conflicts conducted in all targeted communities

65

Community dialogues facilitated by Insider Mediator where **2,611** community members participated in the identification and development of conflict mitigation proposals

Implementation of small-scale conflict resolution project grants

63

Small-scale project grants were implemented to resolve local-level conflicts

31,500

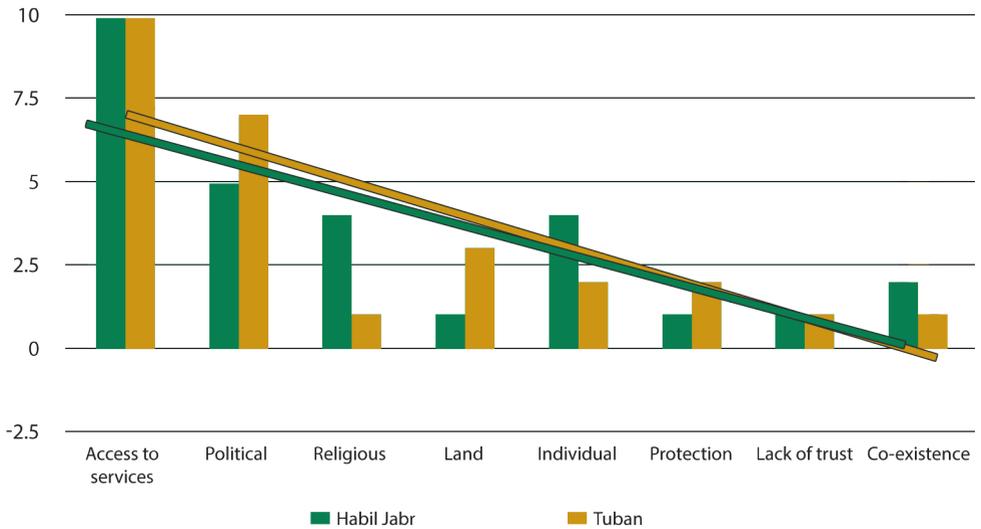

Individuals benefitted from the conflict resolution in the targeted communities

FINDINGS I

Local conflict issues identified in Lahj governorate

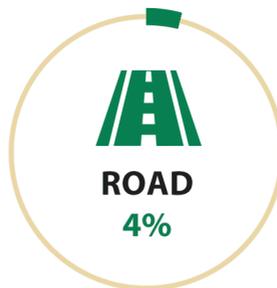

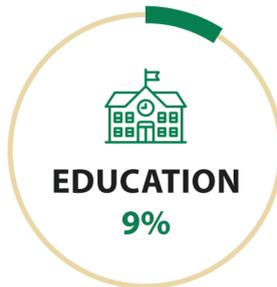

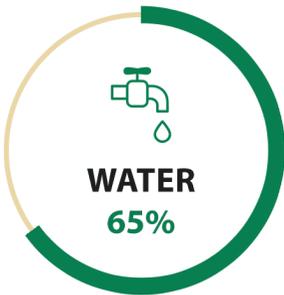

Local-level conflict continues to be around access and control over basic services more than co-existence among IDPs, refugees and hosts. The finding highlights that solidarity among the displaced, returnees and hosts remains stronger.

Source: ERRY UNDP Database and Quarterly Reports 2018

FINDINGS II

Conflict resolution priorities by sector

The community planning and prioritization is based on conflict analysis. Social cohesion intervention is central to community planning, prioritization and basic service delivery.

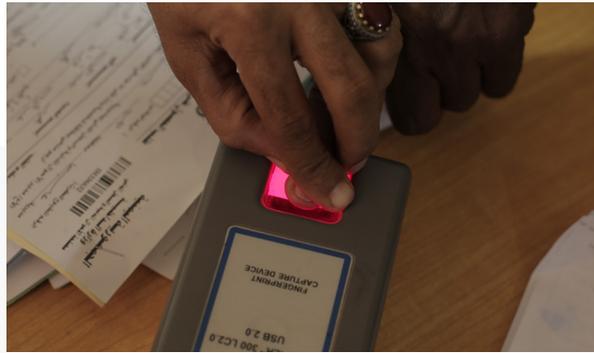

FINDINGS III

“
Community dialogue sessions were proven as a self-referral mechanism to resolve the local-level conflicts.”
”

63 small-scale project grants were implemented to resolve conflicts. They included constructing protection walls in schools, building health centers, and rehabilitating water networks for IDPs and refugees.
